

VIRGINIA BUILDING & CODE OFFICIALS ASSOCIATION

VBCOA Board of Directors Meeting – July 23, 2010

Building Code Committee Chair Report

Since our April 25th meeting, the IBC committee was able to review relevant IBC change proposals for the ICC Final Action Agenda through multiple teleconferences to have consensus stance for Final Action Hearings in May. It is difficult to cultivate and maintain interest for volunteers devoting time and attention to the work load of the committee. I believe attention is needed in the future to the role and scope of our committee and how it should focus its attention in future code cycles, especially during the economic difficulties many localities are still facing.

Respectfully Submitted,

Justin Biller
Chair

Justin B. Biller, Chair
